Advantages

The ample capital and surplus of our Bank, \$190,000.00; its financial position in the business world; its established reputation for clean, conservative banking methods; its careful safeguarding of depositors' money; its resources of over two million dollars; its organization and outside connections, which enable it to be of very material service to its customers; its facilities for the prompt and accurate transaction of financial affairs entrusted to its care; all these are advantages worthy of consideration by those just starting a bank account, as well as by those who wish to form a new banking connection.

Composed by Sophomore Class, Saf-ford High School. Compiled by Ruby

In memory of our classmates and teach We have tried to write here, although broken-hearted,

A short and a sweet description of each. Here lies Miss Bruner, from us just

departed, And those left behind are surely broken-hearted. Who, born for an actress, mocked

mankind, But by teaching broadened her mind. For in all that work of geometry, With which every soul did not agree, She was tested to the finish and found to be sound,

And now with regret we see her here placed in the ground.

In memory of Manilla Tanner, ho always won the highest banner, We lay this wreath upon the grave. Altho she never was too brave. Of Latin she was always sure, The trouble was she couldn't endure

the mysteries of geometry.

Here lies poor Helen, who was weary For on that morning in November, of breath. For often she told us she was sighing for death. At her lessons she had studied

We can remember no trait with which that had to do, And we are positive that she did not wear wooden shoes.
